## Horticulture

### Master Gardener Volunteers

Master Gardeners are extension service volunteers who work with the horticulture agent. They are available to do a whole range of presentations and hands-on activities with youth.

### School Gardens

One project that offers a good introduction to gardening is a classroom or school garden on school property. Master Gardeners may coordinate the selection of plants, help prepare the planting area, teach gardening, help youth plant, act as advisors to the classroom teacher, or oversee the entire project.

### Florida School IPM

The University of FL has recently created new materials and information on Integrated Pest Management (IPM) to help educate teachers and school personnel about a safer way to manage insect pests in schools. for Schools. See attached brochure. For more information at the Florida School IPM website: <http://schoolipm.ifas.ufl.edu>

### Africanized Honeybees

The University of Florida has distributed a toolkit with materials for educating school personnel about the Africanized honeybee threat. Contact the office for powerpoint presentations and handouts. See Africanized Honeybee Extension & Education Website: <http://afbee.ifas.ufl.edu> for more info.

## Family and Consumer Science

A Family and Consumer Science Agent is available to deliver presentations based on Healthy Life-styles, food, and nutrition as well other family and consumer science concerns.
