“Make and Take”

Rain Barrel Workshop

Thursday, April 30th from 6:00 pm to 7:30 pm
at the Baker County Agriculture Center

Participants will learn the ins and outs of rain barrels and build their own rain barrel for immediate use.

Rain barrels harvest rain water which can then be used to irrigate gardens and landscape plants. In turn, they help reduce the amount of fertilizer and pesticides that are carried off site by storm water runoff and prevent nonpoint source pollution in our lakes, rivers, and streams.

$38 fee for materials (per barrel) is due by Tuesday, April 21st at 5 pm.

For more information, please contact Alicia Lamborn, Horticulture Agent, at 259-3520 or alamborn@ufl.edu

The Institute of Food and Agricultural Sciences (IFAS) is an Equal Opportunity Institution authorized to provide research, educational information, and other services only to individuals and institutions that function without discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, marital status, national origin, political opinions, or affiliations.
