Rain Barrel Workshop

Friday, July 2nd from 10:00 am to 11:00 am
at the Baker County Extension Office (Ag Center)
1025 W. Macclenny Ave (Hwy 90)

Learn how to build, install and maintain a rain barrel for immediate use.

Materials for the class include:
- 55 gallon plastic barrel (previously used food grade)
- 3/4 inch brass spigots (2)
- Take home instructions
- For those needing assistance, we help you build and also provide needed tools

Rain barrels harvest rain water which can then be used to irrigate gardens and landscape plants. In turn, they help reduce the amount of fertilizer and pesticides that are carried off site by storm water runoff and prevent pollution in our lakes, rivers, and streams.

$35 fee (per barrel) is due by Friday, June 25th

Friday’s Schedule:
10:00 am — Learn all about rain barrels
10:30 am — We help you build your rain barrel

Already have your own barrel? Just call to register and join the class for free!

For more information, please call (904) 259-3520.

The Institute of Food and Agricultural Sciences (IFAS) is an Equal Opportunity Institution authorized to provide research, educational information, and other services only to individuals and institutions that function without discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, marital status, national origin, political opinions, or affiliations. USDA, UF/IFAS Extension, FAMU and Boards of County Commissioners Cooperating.
